

BENJAMIN Precharged Pneumatic Air Rifles and accessories

Following up on the popular Benjamin® Discovery PCP air rifle comes the revolutionary Benjamin® Marauder! This powerful new PCP air rifle offers all the features needed for field target shooting and small game hunting.

The Marauder features a Crosman Custom choked barrel and internal shroud for unsurpassed accuracy and ultra quiet operation. The new two stage adjustable, match grade trigger pack with a metal trigger makes every shot smooth and steady. The Marauder also has a raised aluminum breech with a heavy duty pull bolt making loading the gun and mounting a scope a snap. The Marauder is also a Multi-Shot rifle with the new 10 shot auto indexing clip. This gun also operates at fill pressures between 2,000 and 3,000 psi. This rifle can be filled with the Benjamin® hand pump or a high pressure tank.

This powerful and exciting air rifle will once again set Benjamin® as the value to performance leader in the PCP category.

Because We Care

We Double-Box all airguns. We reinforce the original factory box and then put that inside our own custom designed box for added protection. We don't want you to be disappointed when you receive your new air rifle so we spend extra time packing every order to avoid shipping damage.

Just one of the many differences with FSI - AirgunsUSA.com
