RWS 350M Air Rifle
Magnum+ power

The RWS Model 350:

This popular RWS ultra-magnum, factory rated at an astounding 1,250 ft/sec in .177 cal (1,050 ft/sec in .22 cal), has been getting rave reviews from shooters and airgun professionals alike!

Featuring sleek styling, its checkering and nicely contoured cheekpiece make it one of the most attractive in the line, but don't let good looks fool you -- it is also one of the most powerful workhorses in the airgun world. At only 8 lbs, the M350 has a whole lot going for it.

Moderate cocking effort at about 40 pounds due in part to the 19" barrel is an added luxury in a magnum airgun. Complete with adjustable sights, scope rail and adjustable trigger.

RWS Limited Lifetime Warranty. Scopes and accessories available.
