

GAMO Air Rifles on this page feature ambidextrous grey/black synthetic stocks ideal for both right and left hand shooters. The comfortably shaped stocks are both attractive and nearly indestructible and unaffected by weather. Scopes require installation--easily accomplished with the included tools. Rifles are equipped with a manual safety. The GAMO COMPACT is a target pistol and is without a safety.

Protected by the full Gammo Warranty: "Gammo uses the latest state-of-the-art technology and superior Quality Control and therefore, we have the confidence to offer our customers a Limited Lifetime Warranty on all air rifles and a One Year Limited Warranty for all air pistols."

Gamo Hunter Externe Combo - 1,250 fps

Huge power and it includes a special 3-9x50mm Illuminated Reticle scope with eyepiece focus.

The Extreme is adult sized in every way from the precision steel bull barrel to the extra large power plant. This rifle demands respect with the 58lbs of cocking effort spring piston that will drive lead pellets at 1250fps and PBA at 1600fps! Jacketed steel bull barrel for accuracy and stability.

The Hunter Extreme rifle features a comfortable ambidextrous hardwood stock to fit both right and left hand shooters along with laser checkering on the grip and

forend. .177 caliber, rated at 1,250 ft/second with lead pellets. Single-stroke barrel cocking (58 lb effort) with two stage trigger and Manual Safety. Barrel weight, Scope Rail. Designed for scope use, no iron sights. Length 48.5" Rifle Wt. 9 lb. Jacketed steel bull barrel 18"

- Knock-down Targets Hit the center and it falls, pull the cord to reset. GAM1008 Squirrel Resettable Steel Target 24.82

Gamo RAPTOR PBA non-lead Pellets -- hyper velocity

New Raptor Performance Ballistic Alloy, non-lead that increases velocity up to 25%. The new P.B.A.™ enables airguns which normally shoot 1000 f.p.s. to shoot up to 1200 f.p.s. Specifically designed as a hunting load only - do not shoot at metal traps, targets or hard surfaces. GAMO now rates their .177 airguns with Raptor and lead pellets:

600 ft/sec lead / 750 ft/sec Raptor
750 ft/sec lead / 937 ft/sec Raptor
850 ft/sec lead / 1062 ft/sec Raptor

1000 ft/sec lead / 1250 ft/sec Raptor
1250 ft/sec lead / 1562 ft/sec Raptor
All GAMO velocities in this catalog are based on Lead Pellets

Never use steel bb's or non-lead pellets such as the Gamo Raptor with any metal or hard surface target. Always wear adequate eye protection.

Practice and teach gun safety at every opportunity.

Gamo Squirrel Knock-down Target

Full size Squirrel target. Made of heavy steel. When you hit the yellow bulls-eye, the target falls down (shown). Just pull the cord to reset the target upright. Use lead pellets only. Four metal stakes are included to anchor the target in the ground. For pellet rifles and pellet guns. A fun way to practice shooting. Portable and durable, made of heavy gauge steel. Approx. Wt./Size: 3½ lbs., Squirrel 7" x 9" x 8". 150 ft cord included. Always use lead pellets only (not BBs, Raptor or other non-lead pellets) and wear protective shooting glasses.

GAM1008 Squirrel Target

Airguns are not toys. Younger shooters must always be supervised by a qualified adult.
