Gamo RAPTOR PBA hyper velocity .177 & .22 non-lead Pellets

New Raptor Performance Ballistic Alloy, non-lead that increases velocity up to 25%. The new P.B.A.™ enables airguns which normally shoot 1000 f.p.s. to shoot up to 1200 f.p.s. Specifically designed as a hunting load only - do not shoot at metal traps, targets or hard surfaces.

GAMO now rates their .177 airguns with Raptor and with lead pellets:

600 ft/sec lead / 750 ft/sec Raptor	1000 ft/sec lead / 1250 ft/sec Raptor
750 ft/sec lead / 937 ft/sec Raptor	1250 ft/sec lead / 1562 ft/sec Raptor
850 ft/sec lead / 1062 ft/sec Raptor	All GAMO velocities in this catalog are based on Lead Pellets

Gamo Squirrel Knock-down Target

Full size Squirrel target. Made of heavy steel. When you hit the yellow bullseye, the target falls down (shown). Just pull the cord to reset the target upright. Use lead pellets only. Four metal stakes are included to anchor the target in the ground. For pellet rifles and pellet guns. A fun way to practice shooting. Portable and durable, made of heavy gauge steel. Approx. Wt./Size: 3 1/2 lbs., Squirrel 7" x 9" x 8". 150 ft cord included. Always use lead pellets only (not BBs, Raptor or other non-lead pellets).

GAM1008 Squirrel Target

Never use steel bb's or non-lead pellets such as the Gamo Raptor with any metal or hard surface target. Always wear adequate eye protection. Practice and teach gun safety at every opportunity.
